

TEAM BUILDING ACTIVITIES FOR LARGE OR SMALL BUSINESSES, CORPORATIONS, SCHOOLS, ETC. AT JEEP'S FORGE, LLC, SCHOOL OF BLACKSMITHING

Jeep's Forge School of Blacksmithing is here to bring the best out of your team. Perhaps your team needs some stress relief/management, a morale boost, or simply recognition for going above and beyond the call of duty. Do you need to bring life back into your team and build additional bonds between the team members, or maybe you want the boss of the year award?! Why not try your hands at blacksmithing at Jeep's Forge School of Blacksmithing? Your team will grow stronger and receive an unforgettable experience while having a blast and pushing themselves in a different direction.

Just as blacksmiths forge metal, your team will forge bonds by hammering hot metal together. Did you know, that blacksmiths are the only tradesmen that use all four parts of the earth: wind, (the air that blows through the fire), water (the liquid that is used to cool/harden the metal), fire (the source of our heat used to heat the metal) and earth/coal (the material that provides the heat to our metal?)

Each class will consist of a brief safety lesson and instructions on each item to be made. We will start with a basic hook, an "S" hook, and a fork. An additional item can be added if time permits. We will learn how to square, taper, round, twist, bend, scroll, and hot-cut metal.

The class is 5 hours long (9am -2pm) with a minimum of 4 participants with a maximum of 6 participants. The cost is \$100 plus a \$15 material fee for each participant. You can choose a date, Monday – Saturday, that works best for you and your team! Book your class by contacting the school at: jim@jeepsforge.com for more information.
